

## INDIANA BATTLE ON TOMORROW

Chances Bright for Hoover If Uprising Materializes

Party Revolt Flames Fanned by Upheavals Elsewhere

Watson Facing Critical Test in Northern Sections

BY ARTHUR SEARS HENNING INDIANAPOLIS, May 6. (Exclusive)—Whether Herbert Hoover wins Indiana's thirty-three delegates to the Republican National Convention depends largely on whether the Hoosiers undertake to clean house in the primaries on Tuesday.

If there should be a popular uprising at the polls to retrieve the reputation of the State, which has been marred by public scandal, official corruption and the excesses of intolerance—if there should be a revolt in the Republican party comparable to that in the Illinois and Ohio primaries—Hoover would be likely to turn to victory the outcome of the vote.

There is abundant evidence that the spirit of protest against disgraceful political conditions that triumphed in Illinois and Ohio has made its appearance in Indiana. In fact, it is evident that the flames of revolt against the Republican organization will burn with greater or less intensity, if not otherwise exposed, surplicates that have been fanned by the success of the protest movement in Illinois and Ohio.

WATSON'S MACHINE

Senator Watson, Hoover's opponent in the primaries and head of the Republican organization with which the exposed malefactors either were or still are identified, is up against a desperate fight to retain his political weight. The organization he heads, however, still is one of the most perfect pieces of political machinery ever put together and upon this perfection Watson is relying to successfully resist any revolt raising its head in the party ranks.

Such strength as Hoover possesses is in the cities and larger towns and among the women everywhere.

Never before in the motor-car industry have you been able to find such exceptional bargains in Rolls-Royce cars. 5-14-MG is one of them.

This Rolls-Royce is like new throughout. It has been reconditioned and is mechanically perfect. It comes on the market only slightly used because of the owner's preference for a closed car. It carries the same guarantee as is given on new Rolls-Royce cars. Appearance, performance and safety are the same conspicuous features of this car as of all Rolls-Royce cars—new or used.

## JAPAN SEIZES CHINESE PORT

Naval and Army Transports Mass at Tsingtao

Consul Reported to Have Put Stop to Tsinan Fight

Nationalists See Challenge to Revolution Move

(Continued from First Page)

Shantung Province, are safe. The Japanese Consul reports that fourteen civilian bodies have been recovered. The total dead among the Japanese, including soldiers, are approximately sixty.

The situation has been quiet since the 4th inst., but conditions are uncertain owing to the difficulty of determining the number of Chinese.

It is stated that the Shantung Railway is severed in thirteen places, with several small Japanese forces thus isolated. The Nationalists occupy the railway twenty-three miles from Tsingtao and at numerous points for a distance of 170 miles, thus presenting a difficult problem for the Japanese.

Watson's forces from Tsingtao on route to Tsinan.

The campaign against Japan is intensifying in all China, while internal warfare seemingly is slackening.

THIRD JAPANESE DIVISION AWAITING ORDERS

TOKIO, May 6. (Exclusive)—The division to dispatch the third Japanese division to Shantung awaits only formal Cabinet approval, due tomorrow. Several transports are preparing to carry 5000 men, including an infantry brigade, a heavy artillery brigade, antiaircraft artillery and three air squadrons. On the arrival of two divisions at Shantung they will be organized into an army corps.

Japanese leaders at Tsingtao are prepared for an outbreak at concentration points and danger signals have been arranged. An official dispatch from Tsinan, the capital of Shantung Province, announced the Japanese will attack the Nationalist army, carrying out reprisals.

CHINESE IN MANILA PROTEST JAPANESE MOVES

MANILA, May 6. (AP)—Chinese residents of Manila at a mass meeting held today decided to cable to the Japanese government protesting against the defensive measures taken by Japan in Shantung Province, China, where rival groups are fighting for territory.

The Chinese also decided to carry their appeal to the League of Nations and to the powers in order that further trouble might be avoided.

The followers of former Gov. Goodrich also are lining up behind Hoover.

Among those who have taken the stump for Hoover in Indiana are Col. Theodore Roosevelt, who hopes to be the candidate for vice-president if Hoover is nominated; Robert A. Taft, son of the late Justice of the Supreme Court; Gov. Green of Michigan; former Gov. Harding of Iowa; J. Adam Bede, Mabel Walker Willebrand, assistant attorney-general in charge of enforcement, and Prof. Michael Pupin, the foreign-born scientist who has specialized before foreign audiences. Ogden Mills, undersecretary of the Treasury, was detained in Washington but sent a statement of his reasons for supporting Hoover.

Tobacco raised in Potosi Rico this year weighed 48,000,000 pounds.

TSINAN QUIETS DOWN

TOKIO, May 6. (AP)—The situation in Tsinan, China, has quieted down, says a Tsingtao dispatch to Rengo, the Japanese news agency, quoting a report from M. Fujita, consul-general at Tsingtao.

He says that fighting has ceased and that Chinese snipers have dispersed.

Fourteen civilians, says the dispatch, including men and women, were killed and many wounded. More than fifty soldiers were reported to have been killed.

Twelve Japanese soldiers were said to have been killed and thirty wounded. No mention was made of other foreign casualties.

PRICE REPORTS ON FIGHT AT TSINAN

WASHINGTON, May 6. (AP)—The story of what occurred at Tsinan has been received today by the State Department from Ernest B. Price, American Consul there, in a dispatch dated the 4th inst., at 11 a.m.

"On the morning of the 3rd inst., at about 10 o'clock, there occurred a clash between Japanese and Nationalist troops, the precise cause

of which is at yet unknown," Price said.

"General firing from both sides

was continued but each side

asserted that while strict orders

had been issued to that effect the

other side continued firing. The

fact appears to be that units from

both sides had become isolated

and cut off and could not be

reinforced, but eventually apparently

the Chinese troops were withdrawn

from the foreign settlements which

it is understood, is now clear of

Nationalists.

NEW CARDINAL  
MAY BE NAMEDElevation of Pacelli Assists  
German ConcordatDelay of Consistory Until  
June ExpectedNuncio at Munich Striving  
for Agreements

ROME (Italy) May 6. (AP)—The Pope probably will postpone until June the consistory, which was planned for this month. Rumors from Vatican circles indicate that Pius XI wants to raise Mgr. Pacelli, Papal nuncio at Munich, to the purple, but does not desire to confer this honor until Mgr. Pacelli shall have completed concordats with all the German states. Agreements still remain with Wurttemberg, Prussia and a concordat is to follow with the German Reich, which will be a summing up of agreements with the various states which make up the republic.

**MAY REMAIN IN BERLIN.**  
Should Mgr. Pacelli complete the concordats with Prussia and Wurttemberg before the proposed June consistory it is likely that he may be elevated to Cardinal at that time and summoned to Rome in time to arrange the final understanding with the German Reich, thus giving greater solemnity and importance to the concordat.

Had Pope Benedict XV lived, Mgr. Pacelli and Mgr. Tedeschini, nuncio at Madrid, would have both been highly trusted diplomatic representatives of Benedict XV, would probably have been elevated simultaneously to the purple, but it is rumored that Mgr. Tedeschini is in no hurry to be made one of the princes of the church. He is only 40 years of age and in his opinion a majority of the sacred colleges would surrender a lucrative position where the dignity, honor and privileges are the same as in the Middle Ages for a post which is poorly paid.

**CARDINAL POORLY PAID.**  
A cardinal in Rome receives only 200 lire monthly, which actually amounts to \$100 a month. It was a princely sum in the Middle Ages, but under present living conditions it is difficult for a cardinal, without private means, to maintain a suitable home. Mgr. Ragonesi, who preceded Mgr. Tedeschini

SEXTON FALLS  
DEAD IN GRAVENew England Cemetery Caretaker Fatally Stricken  
While at His Work

NASHUA (N. H.) May 6. (Exclusive)—George Fred Warren of 1 Lemon street, this city, while digging a grave in Hills Farm Cemetery, Hudson, dropped dead. Mr. Warren, who was sexton of the First Unitarian Church and caretaker of the Nashua cemetery, had nearly completed his task when fatally stricken.

MUSOLINI frequently has discussed plans for helping the princes of the church. He suggested that they be given passes on the Italian railways as is done with the royal family, himself, Minister of Agriculture of Parliament. But Pope Pius XI opposed such a measure, saying: "Not so long as I live shall I allow such a thing from representatives of the government which despises the church."

Steam-Heated  
Roads Planned  
for Mountains

RENO (Nev.) May 6. (Exclusive)—A plan to open highways over the lofty Sierras in the worst winter months by heating the roads with steam pipes is under consideration by the Reno Chamber of Commerce. The plan is supported by heating engineers and road experts and includes placing of steam boilers at four-mile intervals along the highways, the laying of pipes in the mountains below the surface. Its advocates assert heated roads would cause rapid melting of snow and insure open roads in mountain regions throughout the year. It is planned to interest the California Automobile Association and other organizations in the proposition if preliminary experiments prove satisfactory.

COLLECTION OF  
BUGS RECEIVEDCarload of Mayayan Insects  
Left by Dr. BakerMany of Specimens Still New  
to ScientistsMade Available for Study at  
Smithsonian

WASHINGTON, May 6. (Exclusive)—A monument to the leisure hours of a great scientist in the shape of a carload of insect specimens has been received at the Smithsonian Institution. They came from the Philippines by U. S. Army transports via the Panama Canal. They represent the most extensive and varied collection of insects from the whole Malayan Archipelago extant. They were collected under the inspiration of the late Charles Fuller Baker, dean of the college of agriculture at the University of the Philippines, and planned and labeled entirely by his own hands when he was off duty.

The number of specimens is estimated at 300,000, while there are perhaps 50,000 more in the hands of the collector. Incorporated with the natural collections under Smithsonian, it will be well taken care of and in addition will be available to a much greater number of specialists for study than it would be anywhere else. It was his recognition of these facts that led Dr. Baker to call his collection to the Smithsonian. The task of incorporation will require years and much greater funds than are now available to the Smithsonian Institution.

Dr. L. O. Howard, former chief of the Bureau of Entomology, has said of Dr. Baker: "I cannot believe that any other man will ever do as much in entomological lines."

Another authority describes Baker as "the greatest collector of insects that this nation has known and one of the best in the world." He has a wide acquaintance with both flowering plants and fungi.

The collection includes representatives of nearly all orders. Baker gathered them by personal collection, by collecting his students and others to collect for him and by exchange. Areas from which specimens came stretch from Fennang, Straits Settlements, to the Philippines, and there are representatives from Japan, China, Formosa, New Guinea, and Australia. No collection of this size has ever been made and it is of immense scientific and economic importance. It includes an unknown quantity of type specimens already described and many new species yet to be described.

The Baker collection was brought to this country by R. A. Cushman of the Bureau of Entomology and honorary assistant custodian of the Philippine climate, the danger from

## STORM IN CANADIAN COMMONS

Attempt to Provide Comfort and Conveniences for  
Governor-General Bitterly Fought on  
Floor of House

OTTAWA (Ont.) May 6. (Exclusive)—The comfort and conveniences of Canada's Governor-General, Lord Willingdon, and his lady have brought about an uncomfortable situation in the Canadian House of Commons. For two days stormy scenes have marked the session, during which Conservatives, Laborites and finally Progressives bitterly fought the proposal to spend \$300,000 fitting up the Quebec city residence and Ottawa residence of the Governor-General.

Thursday evening the proposal to spend \$150,000 preparing the Quebec house was averted through a majority of eleven. Sarcastic laughter met the statement that the most extensive and varied collection of insects from the whole Malayan Archipelago extant. They were collected under the inspiration of the late Charles Fuller Baker, dean of the college of agriculture at the University of the Philippines, and planned and labeled entirely by his own hands when he was off duty.

The number of specimens is estimated at 300,000, while there are perhaps 50,000 more in the hands of the collector. Incorporated with the natural collections under Smithsonian, it will be well taken care of and in addition will be available to a much greater number of specialists for study than it would be anywhere else. It was his recognition of these facts that led Dr. Baker to call his collection to the Smithsonian. The task of incorporation will require years and much greater funds than are now available to the Smithsonian Institution.

Dr. L. O. Howard, former chief of the Bureau of Entomology, has said of Dr. Baker: "I cannot believe that any other man will ever do as much in entomological lines."

Another authority describes Baker as "the greatest collector of insects that this nation has known and one of the best in the world." He has a wide acquaintance with both flowering plants and fungi.

The collection includes representatives of nearly all orders. Baker gathered them by personal collection, by collecting his students and others to collect for him and by exchange. Areas from which specimens came stretch from Fennang, Straits Settlements, to the Philippines, and there are representatives from Japan, China, Formosa, New Guinea, and Australia. No collection of this size has ever been made and it is of immense scientific and economic importance. It includes an unknown quantity of type specimens already described and many new species yet to be described.

The Baker collection was brought to this country by R. A. Cushman of the Bureau of Entomology and honorary assistant custodian of the Philippine climate, the danger from

LOGAN, RETIRED  
BROKER, PASSESWealthy Chicagoan Found  
Dead in BathtubCerebral Hemorrhage Fatal  
to OctogenarianLarge Stock and Grain Firm  
Bears His Name

CHICAGO, May 6. (Exclusive)—

Theron Logan, wealthy retired member of the brokerage firm of Logan and Bryan, was found dead today in the bathtub of his apartment at the Presbyterian Hospital. Since August 5, 1927, Mr. Logan, 85, a native of New York and Chicago, one of the leading stock and grain brokerage firms in the country, of which Frank G. Logan was a founder.

At the conclusion of a post mortem examination, Dr. Samuel Epstein, Coroner's physician, announced Mr. Logan died of cerebral hemorrhage, which had been in an advanced condition. No water was found in the victim's lungs, Dr. Epstein said, refuting a theory of drowning and indicating that Mr. Logan toppled into the tub when stricken.

NO INQUIRY NEEDED

Dr. Epstein issued a death certificate, announcing no inquest will be necessary.

Miss Violet Ekstrom, a nurse, informed Mr. Logan's undoubtedly long absence in the hospital room and summoned Dr. S. Johnson of the hospital staff.

Mr. Logan's wife died in 1912. A

daughter, Mrs. Samuel MacCurkin, died in New York in 1925.

Third-class trains in England are to be equipped with "coucheettes," so that passengers can rest more comfortably at night.

At the conclusion of a post mortem examination, Dr. Samuel Epstein, Coroner's physician, announced Mr. Logan died of cerebral hemorrhage, which had been in an advanced condition. No water was found in the victim's lungs, Dr. Epstein said, refuting a theory of drowning and indicating that Mr. Logan toppled into the tub when stricken.

## FORGOTTEN IN SPORTS

Schools and Universities Up and Down Coast Compete in Field Meet

May 6 (Exclusive)—One of the encouraging "signs" which give hope for the future to those who have observed present chaos and civil strife, is the rapidly increased interest in sports.

The same enthusiasm for sports, particularly interscholastic or intercollegiate sports, is seen in hospitals, centers like Shanghai, Nanking, Hankow and Canton.

Half the universities and fully a third of the lower schools in China are closed for lack of funds, but those that remain open are as active in sports as though the country were at peace.

"Well, what of that?"

"Why, she knew me in school and she knows I had a million freckles then!"—[Pathfinder].

## ROCKET PLANE MAY HOP OCEAN

*Swift Craft Being Made in Germany for Flight to Roof of World, and If Successful Larger Machine Will Be Built for Trip to America*

KASSEL (Germany) May 6. (P) A rocket-propelled airplane designed not to go to Mars, but only to the roof of this world's atmosphere, is in the making. If it gets back safely a more powerful one will be constructed for a trip to America which its designers figure can be made in four hours.

The Open Works which is planning the experiment and has engaged Anton Raab, German war flyer, to act as pilot of the airplane, say that it will be propelled by the Valters-Sanders system of rocket propulsion which should carry it well above an altitude of 35,000 feet. The plane will weigh 350 pounds.

The plane will not be shot into space, but will take off at an initial speed of thirty-seven miles an hour which will later be increased to 265 miles an hour, ascending to

an altitude of 35,000 feet on the assumption that scientific calculations are correct that beyond 26,500 feet fogs and storms do not exist and blue skies and mild east winds prevail.

No attempt will be made to penetrate beyond the earth's atmosphere, which, it is felt, is a cold void in which living beings would be unable to exist.

After carrying out meteorological observations the pilot will effect a parachute landing, another parachute carrying the plane earthward.

It is planned in the event of the experiment being successful to construct a similar plane guaranteeing a speed of 620 miles an hour, with which it would be possible, the designers think, to fly to America in a day by climbing to a greater altitude in a steep flight than covering the distance in a long gliding descent on the principle applying to projectiles of long-range artillery.

## REPORTER INVADES PALACE

*Roams Around Buckingham and Discovers Famous Gold Service to Be Only Plate*

By JAMES P. HOWE,  
(Associated Press Staff Writer)

LONDON, May 6. (P) Wicked-looking spikes topping a mighty wall surrounding Buckingham Palace are chiefly for show purposes, and it is really not so difficult to enter the London home of the King and Queen. The palace is guarded by bear-capped soldiers and towering sentinels, but, if one knows now, it is easier to gain admission to the palace where kings tread than to the White House at Washington.

On the day the King and Queen of Afghanistan arrived at Buckingham Palace for a visit as guests of King George and Queen Mary, I was inside the palace within a few feet of the royal party when it drove up to the main entrance. My visit had been "arranged."

After the royal party disappeared I rammed my way through the great hall, way up into the State Room, examining the works of art. Nobody paid any attention to me. By chance I got to talking to the King's postmaster. I admired one of half a dozen Rembrandts, but the postmaster preferred to talk about heraldry and asked me what I thought was the best bell of the day at Newmarket.

Next I struck up conversation with a servant and began asking about routine affairs in the palace—where did the King and Queen have breakfast, for instance?

"Oh, you should see the Chinese room," he said. "Come along with me and have a look at it."

**GORGEOUS ROOM**

He led me to an elevator which appeared almost as time-worn as the walls and floors and we ascended two flights. "We must only stay a moment," he whispered as I peeped through a partly opened door for a hasty glance at the gorgeous oriental屏风屏风 and rich jacquard of the famous apartment where the King and Queen often have breakfast.

The Chinese room is about sixty feet long and thirty feet wide. In the center, opposite windows overlooking the garden, there's a large, old-fashioned marble-topped washstand on top and an enormous fireplace where logs are burned in winter to add to the royal comfort. There is also steam heat.

I asked my guide how often he saw the King or the Queen.

"It all depends on his time," he said. "I see him every day and other times not for weeks."

"When you see the King, or Queen, do they speak to you?" I asked.

"Oh, yes, they both call me by name. The King has decorated me twice for length of service. I have been here thirty-three years."

Reaching the ground floor and starting through a long corridor I nearly ran into three tall men in bright red coats, knee breeches, blue buttons and gold braids in love. They were carrying an enormous tray which was just about all he could carry.

"It's tea time," said my guide. "That's tea for Their Majesties."

**DAZELING DISHES**

These corridors with their low ceilings were very gaudy and in places the steam and water pipes which have been put in from time to time, came down to such an extent that I wondered how the King and Queen could get through. I was given tea with the royal tea trays kept from bumping their heads.

Because of my interest in the workings behind the scenes the attendant volunteered to show me the ballroom where the banquet was to be held within a few hours in honor of the King's visit.

We opened a door and stood outside before me was the most dazzling array of gold service I have ever seen in my life. There were four or five gold plates and gold side dishes at every one of the 140 places. There were enormous gold cups every few feet along the octagonal-shaped tables, each holding masses of daffodils, while other large gold platters hung on the walls on all sides.

This was the world-famous gold service which has served royalty since the feasts days of the Georges, unbroken they are the aristocratic equivalent to the palaces of the world. According to legend and popular belief this service is of pure gold and worth "nearly as much as the Bank of England."

**ONLY GOLD PLATE**

"Is it solid gold?" I asked the steward as he handed me a meat dish weighing about a pound.

"It is not," he said. "But you can't make the people believe it. They prove it to us every time. They say it is all pure gold. The silver is merely gold plated on silver," he added as he turned one of the dishes upside down to show the edges where the gold had worn through.

"Why?" he remarked. "If this were solid gold the dish wouldn't be solid gold. We want the things about, would wear it out in no time."

**NEVADA TO REQUEST WATTERSON RETURN**

CARMON CITY (Nev.) May 6. (Exclusive)—Following his acquittal of a murder charge at Tishomingo, Okla., William Watterson will be brought back to the Nevada State prison to complete his ten-year term for murder if Nevada officials accept his transfer to this state.

Watterson was paroled to Oklahoma authorities, when the murder complaint was filed against him. Watterson was sentenced for an attack on his daughter, aged 14, at his ranch near Las Vegas. The girl testified Watterson often forced her to go without clothes in the blinding desert sunshines, flogged them brutally, and suspended the older woman over a web of her arms. Prison officials say he is one of the most dangerous convicts ever confined in the Nevada penitentiary.

**MAINE BOY WILL TRY FOR OLYMPIC GAMES**

PARMINODALE (Me.) May 6. (Exclusive)—Earl McDonald of this town, who is a student at nearby Cross College, Winona, Minn., may compete in the Olympics at Amsterdam this year. McDonald graduated in June, but he will continue his training in the hurdles under Coach Bart Sullivan for the Olympic tryouts in the Harvard Stadium July 6 and 7. His performances in the past winter have set a new record, and he has set the world's record for the 44-yard hurdle, held jointly by Monty Wells of Dartmouth, and by the Brown University star, Collier.

## ARRIVALS AND CLEARANCES AT WORLD'S FAIR

A Message from One of Southern California's Leading Furniture Stores

## Pasadena Furniture Co.

William F. Roberts, Receiver

On April 23rd, the honorable William P. James, Judge of the United States Court, Southern Division, appointed Mr. William F. Roberts, Receiver, to administer the affairs and conduct the business of this company.

## DRASTIC MEASURES ARE NOW NECESSARY TO REDUCE THE ABNORMALLY LARGE STOCK.

Therefore, effective at once, every item in the stock of this company is available at very sharply reduced prices (except articles where prices are fixed by manufacturer.)

Approximately ONE MILLION DOLLARS WORTH of home-furnishings is now on sale.

**\$350,000 LIVING ROOM FURNITURE  
\$200,000 RUGS AND FLOOR COVERINGS  
\$200,000 BEDROOM FURNITURE  
\$200,000 DINING ROOM FURNITURE**

Receiver's prices have been attached to each article. Your visit to Pasadena will save you hundreds of dollars.

William F. Roberts, Receiver

The same high character of courteous attention and service will be maintained in all transactions.

The Receiver will render financial accommodation, wherever possible.

# DELINERATOR

at 10¢ GOES OVER  
TWO MILLION

EVER since March, when the price of Delineator was made 10 cents, women have been demanding more copies than we have been able to supply. In March, 1,650,000 copies proved not nearly enough. In April, 1,900,000 copies were still too few. So here goes the May issue with over 2,000,000 copies printed.

Delineator is the one magazine of large circulation that is keyed to modern women's imperious demand for style and beauty. Of course, they prefer Delineator—now that it costs no more!

*May Issue on Sale Now*

Read

**KATHLEEN NORRIS'S**

latest and greatest serial

**"STORM HOUSE"**

This thrilling novel of romantic love by America's best-loved author is typical of the monthly feast of fiction that Delineator is now offering its readers. Month by month the most popular modern authors give you the best of their latest work.

Such famous names as Edith Wharton, Peter B. Kyne, Ida Tarbell, Coningsby Dawson, Louis Joseph Vance, Elizabeth, Countess Russell, Hugh Walpole, Ahmed Abdullah, Helen Dryden and Rose (Kewpie) O'Neill are now numbered among Delineator's regular contributors with their fascinating novels, stories, special articles and illustrations.

Just stop at some newsstand and see what a wealth of style and beauty, helpful service and sparkling entertainment Delineator gives you for one little dime today.

## PRESS EXHIBIT WILL BE MECCA

International Show Abroad  
to Draw Large Crowds

Event Planned to Set Forth  
History of Printed Word

Publishers of This Country  
Arranging for Display

BY FREDERIC J. HASKIN  
WASHINGTON, May 6. (Exclusive)—Added to the lure of European cathedrals, palaces and art galleries will be two major attractions this summer and, according to travel agencies, the trans-Atlantic exodus, which now is beginning, will be greater than ever. The Olympic Games, to be held in Amsterdam, and the "Press" or International Press Exhibition, to be held in Cologne, will be meccas for the pilgrim.

The Press, a mammoth exposition, is planned to describe the history, preparation and production of the printed word and is the first of its kind to be held. Judging from the inquiries received by steamship lines and travel bureaus, it is attracting the attention of laymen as well as of those professionally interested.

LOCATED ON RHINE  
The buildings in which the display will be held are situated on the banks of the Rhine, opposite the famous cathedral in Cologne. In the international pavilion practically all the civilized nations of the world will display their contributions to the progress of the printing press. The United States, Great Britain, France, Germany, Spain, Portugal, Italy, Poland, Russia, Switzerland, Turkey, Belgium, Latvia, Lithuania, Austria, Argentina and many others will have exhibitions.

The management has announced that the main departments will be daily open to the public, including printing art, technical and auxiliary installations, associations and unions, press and traffic, press and art, press and advertising, newspaper science, paper photography and other printing specialties.

The United States is not to be represented officially at the Press. However, a committee headed by John Clyde Oswald, managing director of the New York Employing Printers' Association, and composed of the managing editors and publishers of "Editor and Publisher," Victor F. Ridder, Dr. James Melvin Lee, George French and many other leaders in the publishing world, has planned an exhibit.

NEW IDEA IN DISPLAY  
A lifelike display of show cases and stands will be avoided at the Press, for those in charge intend to give a vivid impression of the relationship of the printed word to every-day life. This will be done by emphasizing its cultural, economic and technical aspects.

The origin and growth of printing and its importance as a means of distributing knowledge and contributing to civilization itself will be shown in the cultural historical exhibition, one of the parts of the major scheme.

Among the graphic industries exhibit will be included the production of paper, a display of machinery used by the best known printing-press manufacturers, technical departments in the typewriting, engraving, electrotyping, all the major printing processes, applied graphic arts, bookmaking, photography, telephony, wireless, radio, cinematography—in fact, every phase of transmission allied to the printed word.

Under the direction of Dr. James Melvin Lee, director of the school of journalism of New York University, and Prof. John O. Simmons of the school of journalism of Syracuse University, will be shown the relationship of the college, university and normal schools to the printed word by an exhibit on schools of journalism.

### NEWSPAPER EXHIBITS

Individual exhibits of American newspapers will include those of the Chicago Tribune, New York Times, Christian Science Monitor, United Press, International News Service, Journal of Commerce, New York Staats-Zeitung and others.

Some of the special features played up in this unusual display will be: Prints and art prints and women prints and school, press and student, press and sport.

One of the women's magazines to be exhibited is the Matrix, a magazine published by women in journalism as an aid and inspiration to both undergraduates who are contemplating writing and to women of livelihood and to women who are beginning the way in that profession.

It is interesting to note that less than 500 years ago the first book was published. However, the early Assyrians knew the principles on which printing is based, and about half a century B.C. the Chinese printed from blocks and clay tablets.

Separating the letters or characters of the alphabet so as to permit rearrangement and to obviate the cutting of whole sentences and pages on blocks was the great discovery for printing.

As no printed works of Coster of Holland can be identified, Johannes Gutenberg of Mainz, Germany, has been recognized as the inventor of the use of movable type, during the fifteenth century. Another German, Peter Schöffer, is credited with first casting metallic type in plaster molds.

### DEAN PAUL CADMAN

SUCCEEDING HYDE

BERKELEY, May 6. (Exclusive)—As the climax to five years of service in the capacity of assistant dean of men Dr. Paul F. Cadman, one of the most popular male members of the faculty on the campus, has been appointed as dean of men to succeed Dr. Charles G. Hyde, according to announcement by President W. W. Campbell. Dr. Hyde, it is announced, is resigning to devote himself more fully to academic and scientific duties. The new dean has a record of five years' service as an instructor in the university economics department. Before coming to the State University Dean Cadman achieved a wide reputation as an educator.

# STRAW HATS

From Italy!—Switzerland!—  
Japan!... The greatest assemblage of straw hats that Los Angeles has ever seen. The new shapes! New braids! Thousands of them.

And every straw hat is priced at \$2.00 at BOYD'S... Sennits, genuine Swiss Yeddos, Flatfoots... You can't find their equals under \$4.00 and \$5.00 in most stores... But here, at Boyd's, you have an unlimited selection at only \$2.00.

## BOYD'S Super-Values in 2-Pants Suits

As the largest exclusive 2-pants suit store west of Chicago, Boyd's presents these three great groups of Spring styles and fabrics at \$25, \$30 and \$35... three standardized prices... There would be a riot of crowds trying to buy Boyd's 2-pants suits if the public realized the true, super-values that these Spring suits represent... Every

suit with 2 pairs of pants and NO CHARGE FOR THE EXTRA PAIR. At Boyd's.

New models for Spring and Summer. New lighter colors. All the finest all-wool fabrics. And every garment hand tailored. Added to this is Boyd's free pressing and minor alteration service for the entire life of every garment you purchase.

# Longest Railway Bore in United States Is Completed in Washington

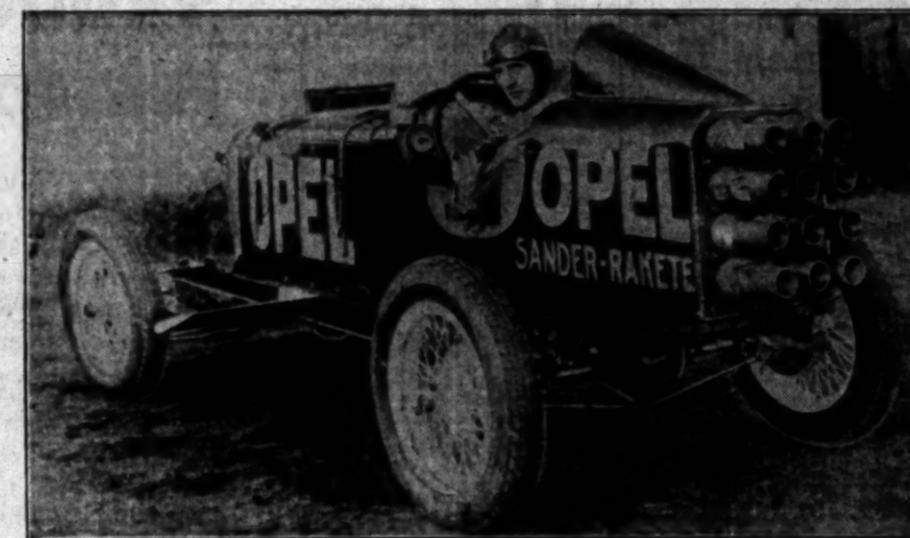

The Longest Railway Tunnel Ever Built in the United States was completed a few days ago when President Coolidge pressed a button which set off a blast connecting the two bores of the Great Northern tunnel through the picturesque Cascade Mountains in Washington. Dotted line shows where eight-mile bore comes through. (P. & A. photo.)

John Smallman's A Cappella Choir.

Two of The Outstanding Musical Organizations on The Pacific Coast, John Smallman's A Cappella Choir and Earl Burtner's Los Angeles Biltmore Hotel Orchestra (photo above), will take part tonight in the inaugural program of KHJ, the Don Lee station, which broadcasts over a network including San Francisco, Fresno and Los Angeles.

This Is The New Rocket Type Motor Which Will Propel Planes to Moon, German aviators believe. At any rate, a German aviator will make an attempt to fly beyond the earth's air envelope in such a plane. Photo shows an automobile equipped with the engine. (Herbert photo.)

The "Speediest" Family in America returned to the local environs Saturday when the Panama liner California docked at the harbor. They are Harold Lloyd, Mildred Davis Lloyd and Miss Gloria Lloyd, aged almost nothing, and they've been to New York. (Times photo.)

The Youngest Woman ever admitted to practice before the United States Supreme Court is Miss M. Vashti Burr, Deputy Attorney-General of Pennsylvania. (P. & A. photo.)

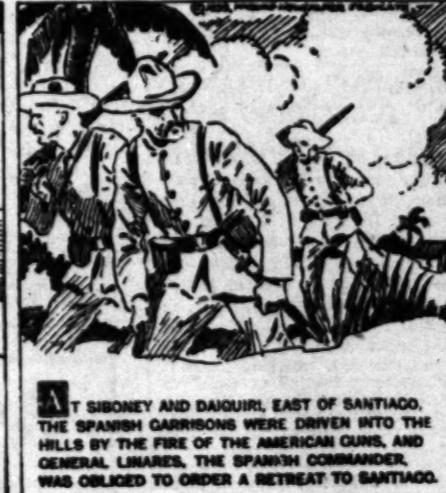

The Cartoonists' Club of Los Angeles, Only Organization of Its Kind in America, is arranging for its first exhibition to be held at the California Art Club the 15th inst. Some of the most famous cartoonists in America are caught in the above flashlight, taken Saturday night at a meeting of the clan in Hollywood. (Times photo.)

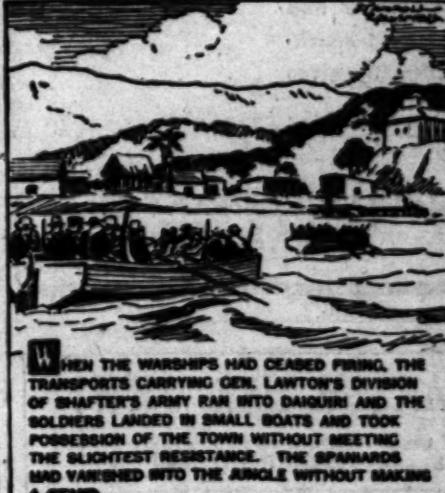

## OUR HISTORY IN PICTURES 1022 The Story of Our War With Spain. The Landing At Daiquiri.

ON WEDNESDAY, JUNE 22, 1898, TO COVER THE LANDING OF UNITED STATES TROOPS ON CUBAN SOIL, SAMPSON'S FLEET SEPARATED INTO SMALL GROUPS OF WARSHIPS, AND BEGAN SHELLING THE SPANISH GARRISONS ALONG THE COAST FOR MILES.

AT SIBONEY AND DAIQUIRI, EAST OF SANTIAGO, THE SPANISH GARRISONS WERE DRIVEN INTO THE HILLS BY THE FIRE OF THE AMERICAN GUNS, AND GENERAL LINARES, THE SPANISH COMMANDER, WAS OBLIGED TO ORDER A RETREAT TO SANTIAGO.

WHEN THE WARSHIPS HAD CEASED FIRING, THE TRANSPORTS CARRYING GEN. LAWTON'S DIVISION OF SHAFTER'S ARMY RAN INTO DAIQUIRI AND THE SOLDIERS LANDED IN SMALL BOATS AND TOOK POSSESSION OF THE TOWN WITHOUT MEETING THE SLIGHTEST RESISTANCE. THE SPANIARDS HAD VANISHED INTO THE JUNGLE WITHOUT MAKING A SOUND.

WHILE THE MAIN BODY OF LAWTON'S DIVISION CAMPED FOR THE NIGHT ON THE OUTSKIRTS OF DAIQUIRI, HIS ADVANCE GUARD FOLLOWED THE RETREATING ENEMY TO THE SOUTH, AND OCCUPIED THE LITTLE TOWN OF SIBONEY.

She Shoots a Mean Pistol—No Fooling—Edna E. Christofferson of the Pacific police force, who dropped into New York yesterday and scored ninety-four bull's-eyes out of a possible 100 for the benefit of the "world's best" police force. (P. & A. photo.)

He's One of The Horatio Alger Boys—Benny Sugarman started his business career as a bellhop at the Toscana Hotel, this city, and two days ago Benny Sugarman, in recognition of consistent service and knowledge of the hotel game, appointed him manager of the hotel. (Times photo.)

The Hollywood Motion Picture Colony Came to participate in the observance tomorrow of the tenth anniversary of D. W. Griffith at a dinner. Griffith (left) with one of his musical director, Dr. Hugo Reisenfeld, is shown in informal pose in this photo.

## NICARAGUA WAR AT STANDSTILL

Marines Have Situation Well in Hand

Forces Scattered to Meet Sandino's Raids

Preparations for Election Engross Attention

MANAGUA (Nicaragua) May 6. (AP)—The situation in Nicaragua apparently is well under control of the United States Marines, distributed over the entire area where there have been disturbances during the last nine months by Gen. Augustino Sandino and his followers.

The 3000 marines now in Nicaragua and approximately 1100 Guardia Nacional (National Guards) guard all the principal towns against raids. Sandino's men, according to estimates by marine officers, do not number more than 300 and are broken up into small bands.

Detachments of Marines are now stationed at forty-eight posts throughout the country, the number of men at each varying from 10 to 200. The last raid was in Managua, the capital, which headquarters of the Second Brigade, composed of the Fifth and Eleventh Regiments. More than half of the troops are in the northern tier known as the "disturbed area," composed of the departments of Nueva Segovia, Jinotega, Matagalpa and Esteli.

**BASE FORCES**

At Leon, an important town on the railroad between Coban and the port of entry for the west coast, and Managua, a force of some 500 marines is quartered. This is the base from which supplies for northern towns are transported by motor trucks and ox carts a distance of 150 miles. At Ocote, in the north, where the first stubborn fight with the rebels occurred last July, the force numbers some 250 men.

Several airplanes also have their base at Ocote from where they are able to patrol practically all of Northern Nicaragua, where many of the disorders have occurred in recent months.

At the aviation field near Managua about 150 men and fifteen planes are quartered and preparations are being made to extend the field.

**"WELL IN HAND"**

"If conditions remain as at the present time," said Brig.-Gen. Losan Peland, commander of the marines in Nicaragua, "I am confident that order can be maintained during the Presidential election which occurs November 4. We have marines at every important point in the country, including some 500 on the coast and many patrols, mounted and unmounted, are scouring the regions where rebel bands are likely to make their appearance."

Preparations for American supervision of the Presidential election are going forward under the command of Brig.-Gen. Frank R. McCoy, permanent representative of President Coolidge. Gen. McCoy has a force of assistants mapping plans for supervising the polls throughout the country in order that all qualified voters may have the opportunity of casting their votes without intimidation and to insure a fair count of the ballots.

**AMERICANS ON BOARDS**

The national electoral board is composed of three members, one from the Liberal party board and one from the Conservative party, with Gen. McCoy as chairman. This board, appointed by the Supreme Court of Nicaragua, has the final decision in any election contests which may be brought from the thirteen departmental boards or the 400 local boards, which are similarly constituted.

Gen. McCoy has begun to select the three boards Americans who will serve as chairmen. In addition, it is expected that about fifteen Americans, chosen from army and navy officers and civilians, will be brought here as inspectors.

Only one Presidential candidate had been nominated at the end of April. Gen. Jose Maria Moncada, leader of the revolutionary forces last year, who received the nomination of the Liberal party at its convention in February. Gen. Moncada is a strong supporter of the American policy in Nicaragua and is making his campaign along that line.

Whether there will be an opposition candidate running as an independent against Moncada appears at this time to be problematical. Recently Luis F. Corea, a lawyer of New York, arrived here and local papers assert that he may become a candidate for President on an independent ticket. Corea, in 1924, received 2400 votes in the election on the Republican-Liberal ticket, receiving 2400 votes out of a total of 84,000.

Corea, who has lived very little in Nicaragua, is noncommittal on the object of his visit to Nicaragua except to say that he has come to "assist in selecting a candidate for President and to assist in bringing about a fair election."

The Conservative party will hold its convention the 20th inst., and a spirited contest is promised because of an apparent split in the party. President Diaz has endorsed Col. Guadalupe Paez, Foreign Minister, for nomination and he already has opened headquarters in the principal centers. President Diaz in all his statements has expressed great admiration for the United States and the American policy in Nicaragua and is making his campaign along the same lines.

**PLANTER CANDIDATE**

Gen. Emilio Chamorro, ex-President of Nicaragua, also a Conservative, is opposing the candidacy of Guadalupe Paez and is backing Vicente Rappaccini, a wealthy coffee planter, for the Presidential nomination. Rappaccini, has never been in politics, is 60 years of age, and is reported to be one of the wealthiest men in Nicaragua.

There are approximately 85,000 persons entitled to vote out of a total population of about 650,000. There is no penalty attached to the buying or selling of votes and in many cases, since it is ascertained that money has been a large factor in determining the result.

The range live-stock industry uses more than one-third of the areas of the United States.

## ADVENTURER NEARS GOAL

Amateur Woodsman Pushes on Toward Bog That He Expects Will Yield \$10 Daily Profit

BANGOR (Me.) May 6. (Exclusive)—Having within the last twelve hours put another 200 adventurous miles between himself and his former humdrum work as a pipefitter at Quincy, Mass., Ralph Kemp, 22 years of age, newly fledged woodsmen, moss collector and herb picker, still is traveling late tonight toward the mysterious Elton Bog where he expects to prove that an able-bodied man with ordinary intelligence can wrest a living from this wilderness and net a daily surplus of at least \$10.

If Kemp can collect and sell enough moss, bark, herbs or evergreen to earn \$300 in thirty days, having also for the same period provided himself with food and shelter, he will win a wager for a thus-far theoretical Boston business man who is said to have placed a bet of some thousands of dollars on the stunt with another Boston business man.

Kemp started his experiment in the woods near Portsmouth, N. H., Friday. In the first two days he found sizable stuff enough to make a total of \$168. Board and room cost him \$32. This morning he had a capital of \$88, but after he had paid his \$12.50 hotel bill and had had breakfast, lunch and supper, he was reduced this evening to \$3.50.

**FARE BEHIND QUOTA**

Having averaged a scant \$1.95 a day to date, Kemp is far behind his quota, but if his bog near Elton village turns out to be the gold mine he thinks, he'll make up for lost time in the next two days. The second time in two days, he expects the competition on the trail to develop in his frontier provinces.

Because he is from Lorraine himself and because the Lorrainers always have been more tractable than the Teutonic Alsatians, the Premier used the name of the second time in two days, he expects the competition on the trail to develop in his frontier provinces.

France firmly is resolved to let go of a single parcel of Lorraine or Alsace," he said, in his staccato voice, "furthermore, our neighbors are plain ne'er to take us in. We will never consent to the creation of a neutral or autonomous state whose existence, fragile and precarious, would probably prepare the way for new conflicts."

**STATEMENT OF ATTITUDE**

This merely is a restatement of the traditional French attitude on autonomist agitation. But what is really significant in the Premier's speech and proves the French headed toward the dissolution of the concordat still more, although it was abrogated by 1919, is that

Providing this Premier, Poincare changed the whole aspect of the knotty Alsatian problem. Heretofore preponderantly Catholic Alsace lay awake nights worrying that the anticlerical French would close the religious schools and close the concordat, as they had done in France, and nullify the concordat.

It was rumored on the eve of the elections that Premier Poincare, who is notorious as an anticlerical with a big radical— which means Masonic— majority, which was not able to be elected by 1919, would

provide the Alsatians with a new concordat still more, although it was abrogated by 1919, is that

In service to readers during the month of April, the Los Angeles Times printed more news and other editorial matter than any other newspaper in the world.

It opened for public inspection the most costly, complete and beautiful demonstration home ever constructed and furnished under the auspices of a newspaper.

It published and distributed without cost to its regular subscribers two beautiful rotogravure motion picture magazines—The Pre-View—equal in value to magazines retailing at 25c to 50c each.

It brought toward consummation the fifth annual Oratorical Contest, with all the vast managerial detail incident to such an undertaking.

It inaugurated the first long-distance, all-the-year airplane delivery service ever attempted by any newspaper, selling its complete 2 a.m. edition on the streets of San Francisco and Oakland at 6 o'clock the same morning, side by side with the morning papers of the Bay District; and making it possible for more than 4,000 Southern Californians who daily visit San Francisco to read at breakfast the same edition of the same newspaper that comes to their tables in Southern California.

These and other April activities centered attention on The Times to a degree never surpassed in The Times' career.

They manifested themselves by attracting to The Times the stupendous total of 2,133,026 agate lines of paid advertising.

April advertising in The Times exceeded the combined total of both other morning newspapers, and likewise the combined total of the two largest afternoon newspapers.

In every department of advertising... national, local display, want ads... The Times set an eclipsing record.

April, in short, indicated that business men realize more and more the difference in value between The Times' smashing home-delivered circulation and the flood of worthless "extras" sold on the streets through false, misleading and often obnoxious headlines.

April was a banner month!

May will be a banner month!

Constructive energy, clean pages and value to readers constitute a newspaper policy which in a community of homes is bound to prove invincible.

## FOUR KERN WELLS GET UNDER WAY

New Projects for Year  
Brought Up to Total of  
126 During Year

BAKERSFIELD, May 6. (Exclusive)—Bringing the total of new wells begun this year in Kern county to 129, four holes were spudded in during the past week in local fields.

Two wells were commenced in the Midway field, one being the No. 91 of the Standard Oil Company on Sec. 19, 31-24, and the other being the No. 100 of the North American Oil Consolidated on Sec. 20, 31-24.

Other development work in the Midway field included test for water shut-off in the Chandelier-Canyon Midway Oil Company No. 4, Sec. 7, 32-22; Standard Oil Company No. 88, Sec. 31-34; and the No. 23-24, Standard Oil Company No. 94, Sec. 19, 31-24. The Murviles Oil Company is deepening its No. 15 well on Sec. 26, 31-23 in this field.

Hugh Porter has begun a new well in the Belridge field to be known as No. 2. It is on Sec. 26, 20-21.

John J. Elliott has begun his first test well on Sec. 20, 27-28, in the Pico Creek area.

Tests for water shut-off in the Kern River field include Midway Oilfield Company, Ltd., No. 14, Sec. 14, 28-27; California Star Oil Company, No. 6-10, Sec. 22, 28-27, and the Standard Oil Company No. 1, Sec. 24, 28-27.

## DENN SHAFT ORE BETTER WITH DEPTH

Values Said to Show as  
High as 14 Per Cent at  
Bottom of Hole

BISBEE (Ariz.) May 6. (Exclusive)—Late report from the Denn shaft of the Shattuck-Denn Corporation tells of the development, partially by diamond drilling, of a new one body, at least 320 feet long and forty feet wide, this from workings on the newly opened 2000 level.

For 100 feet of depth the drilling found ore averaging 4 per cent copper in the second 100 feet the value was raised to 8 per cent and the hole was bottomed in 14-per cent material. Material silver values also are carried.

Calumet & Arizona has started

upon a campaign for possible utilization of its complex lead zinc ore, which mainly are of low grade. The problem is that the main problem is that of economical mining.

At a recent directors' meeting here, authorization was given for sinking a new 1500-foot shaft on the company's Eighty-five mine, at Valdron, N. M.

Philip Dodge, in continuing experiments designed to lower production costs, has installed a conveyor loading machine in its Morenci mines. Statement is made that this will reduce the cost of little more than in handling tonnage of waste, but has speeded the work up materially at a haulage drift point where faster handling is essential.

In Bisbee the corporation is opening a new bench in its great Sacramento hill steam-shovel operations.

Belridge Gets  
Better Yield in  
Deeper Project

BEHLRIDGE, May 6. (Exclusive)—The Belridge Oil Company has

made an oil strike out on the eastern limits of the Belridge field on Sec. 34, 28-21, where its No. 118 was deepened from 800 to 2650 feet.

Now instead of a small producer of 18-barrel gravity oil the company has

been well doing from 178 to 200 barrels of 30-degree gravity oil.

The company is practically all the township, so it is not likely that anyone else will tap the rich sand.

The casing record of the well shows that the six-and-one-fourth-inch

casing was set at 1492 feet, with

four-and-one-half-inch running

through to the bottom with perforation starting at 1414 feet.

REDRILLED PROJECT  
MADE TO PRODUCE

MARICOPA, May 6. (Exclusive)—

The Signal Gasoline Company's new No. 1 well on Sec. 8, 11-23 in the Sunset field is doing about ninety barrels daily after being drilled and deepened to 3147 feet.

The eight and one-quarter inch casing was set at 2861 feet and the six and one-quarter inch at 2918 feet.

REPORT ROSY on  
Prospects at  
Merry Widow

W. R. Johns, superintendent for

the Big Silver Mining Company of

Los Angeles, operating in Inyo

county, was here last week conferring

with manager John D. Fields. He

took back with him 5000 additional

ore sacks. Mr. Johns reports that

the cross-cut to the hangingwall

of the Merry Widow ore body, a

recently important strike, disclosed two

feet of high-grade silver, silver

and gold to the ton, in addition to

the five feet constituting the balance

of the ledge, which carries first-class shipping values.

Highgrade. Mr. Johns says,

being sacked as rapidly as possible

upon the completion of the

smelter as soon as trucking arrangements can be completed.

Five of the six tunnels being driven in

the mine development, Manager Fields

reports, which were run to prove

the continuity and permanency of

the ledge of rich ore deposit has

shown the ore bodies go down,

proving the correctness of the report

made by Ira B. Jordonson

after making an exhaustive examination

of the company's property.

The six tunnels headed for the

black rich ore body, should reach

its objective about the 15th inst., ac-

cording to Fields.

OIL MEN HONORED

Midland Citizens to Furnish Up

Club Room for Group

MIDLAND, May 6. (Exclusive)—

Citizens of Midland are planning to

furnish the Midland Petroleum Club

rooms in the Hotel Scharbauer as a

compliment to the oil men.

The clubrooms were perpetually

established free by Clarence Schar-

bauer, owner of the hotel. Funds

for furnishing the clubrooms are be-

ing raised by Mr. Scharbauer and

Leon Goodman, Midland Chamber

of Commerce officials.

## OIL FROM ENORMOUS DEPTH

Richfield Oil Company Drill Passed Seventy-four Hundred Feet and Finished Good Producer

BY HOWARD C. KEGLEY

The biggest deep producer at Signal Hill was completed at Long Beach yesterday. It is the Denn No. 6 of the Richfield Oil Company. Official reports were not available yesterday, but it was unofficially reported in Long Beach that the well appeared to be good for from 2500 to 3000 barrels per day. It was turned into the tanks late yesterday. The depth of this hole is 7601 feet, and there is producing formation all the way down from 5186 feet. This gives the well more than 2200 feet of oil sand and shale.

Seven new completions were added to the deep zone list at Signal Hill last week, but three had to be taken off production later, so there were only four actually producing throughout the week. The deep-zone production hit 110,000 barrels a day for eighty-five wells.

The Shell Company temporarily suspended its deep-zone work in the Midway field, but the company has now resumed its work in the Pico Creek area, where it is yielding less than fifty barrels daily. An effort is made to clean it out and recomplete it for bigger production.

The Shell Company temporarily suspended its deep-zone work in the Pico Creek area, where it is yielding less than fifty barrels daily. An effort is made to clean it out and recomplete it for bigger production.

## Late Reports From California's Great Petroleum Pools; Financial World News

## VENTURA FIELD STILL MYSTERY

District Continues Problem to Geologists

Knowledge About Structure Hidden in Doubt

Guess on Anticline Location Found Erroneous

The Ventura-avenue field at Ventura continues to afford operating companies with material for interesting conjecture, and many of the geologists who have worked over the old field a great many times are said to have arrived at the conclusion that they know nothing about the structure. They used to think they had the anticline located, but it seems that they were wrong in that belief.

The north side of the field seems to have been rather well defined by a series of poor holes, eight of which were in the Magenheimer test. But over on the south dip, where land could have been picked up rather cheaply a few years ago, the M. K. T. Oil Company is about ready to make a production test in a Foster No. 1 well which is nearly 900 feet south of the Orion and Willett producers of the Petroleum Securities Company. This Foster well is reported to have nearly 100 feet of saturated oil sand high enough up in the hole to be considered producible, it is thought.

A few years ago the fellow who thought they knew the trend of the field, and didn't think it went that far south, could have picked up that land on the south dip, according to reports for a few years past. The new well is reported to be in the same area as the Orion and Willett producers of the Petroleum Securities Company. This Foster well is reported to have nearly 100 feet of saturated oil sand high enough up in the hole to be considered producible, it is thought.

Then again, over on the east side, on the brink of Hall's Canyon, the Associated is down over 700 feet in its Lloyd No. 100, a deep well which is to be drilled more than 800 feet of productive formation. This well is striking the bottom of the oil zone, which has never been found by any well in the field. If mechanical troubles do not develop this hole may go forward several hundred feet beyond present limits.

Do the field is still a great mystery, with the probability that considerable oil has migrated from what used to be the main field to a point farther south, or again there may be another wrinkle down there.

**DELAY**  
"Mr. Jones in" inquired the seller at his residence.  
"I think so," replied the butler, who frequently listened in on the radio. "Will you please stand by?" (Portland Express.)

## ANGELENOS EQUIPPING GOLD MINE

Avaseno Property Near Placerville Being Put in Trim to Produce

SACRAMENTO, May 6. (Exclusive)—Installation of a mill, concentrators, rock-crusher, compressor and hoist is proceeding at the Avaseno gold mine twenty miles east of Placerville, operated by H. D. Hill and associates of Los Angeles.

The road leading to the property is being repaired, and mining is to begin in a few weeks.

WHAT'S DOING  
today

Los Angeles City Club dinner meeting, clubhouse, 833 South Spring street, 7 p.m. George H. Duley will speak on "Is the World System a Good Thing for Los Angeles?"

Women's University Club board meeting, clubhouse, 943 South Flower street, 12:30 p.m.

Los Angeles Club meeting, dining room, 801 Wilshire, Mrs. William B. Hunnewell will present a dramatic recital, "Spread Eagle."

Los Angeles Monday Club meeting, Bible Institute, 2 p.m. Prof. Alva J. McClain will speak.

American Guild of Organists general meeting, First Presbyterian Church, Wilshire Boulevard and Andrews Place, 8:15 p.m. Sibley G. Pease at the console.

Los Angeles Electric Club luncheon meeting, Biltmore, noon.

Alpha Sigma Phi Alumni Council luncheon meeting, University Club, 614 South Flower street, 12:30 p.m.

Marvin-avenue School Parent-Teachers' Association meeting for election of officers, Marvin-avenue School, 2 p.m.

Hollywood Shrine Club luncheon meeting, Pfaff's Whistle Cafe, noon. Clubman Fred Cadman will furnish program.

Hollywood Opera Reading Club meeting for election of officers, club-house, afternoon. Verdi's "La Forza del Destino" will be performed.

Los Angeles City Teachers' Club board of directors meeting, club-house, 4 p.m.

Los Angeles Women's City Club meeting, Playhouse Theater, 948 South Flower street, 1 p.m. Dr. William F. Doster will lecture on "Modern Civilization."

Women's Overseas Service League meeting, clubrooms, Patriotic Hall, 1818 South Figueroa street, 7:30 p.m.

Southwest Museum exhibit, High-lane Park, afternoon.

Los Angeles Museum exhibit, Exposition Park, 10 a.m. to 5 p.m.

Illustrated lectures, scenic motion pictures, Chamber of Commerce Building, 10 a.m. to 4:30 p.m.

State Societies

Wisconsin State Society meeting, Veterans' Hall, 246 South Hill street, evening.

Motion Pictures

Alhambra, 731 South Hill—"The Crown," "Biltmore," Fifth and "Grand-Win."

Broadway Palace—Broadway between Sixth and Seventh—"Potemkin."

Carthay Circle, Wilshire at Carlton Center—Street Angel, "Orpheus," Seventh and Grand—"Sunrise."

Forum, 4550 West Pico—"Chicago."

Grauman's Egyptian, 6708 Hollywood Boulevard—"Across to Singapore."

Loew's State, Seventh and Broadway—"The 50 Girl."

Metropolitan, Sixth and Hill—"Three Simmers."

Million Dollar, Third and Broadway—"The Good-by Kiss."

Eighth, Tenth and Broadway—"The Jam Singer."

Dilled Artisan, Broadway between Ninth and Garden of Eden.

Warner Brothers, Hollywood, at Wilcox—"Glorious Betray."

West Coast Boulevard, Washington and Vermont—"Beware of Married Men."

West Coast Uptown, Tenth and Western—"Sadie Thompson."

State, Eleventh and Hill—"The Racket."

Belmont, First and Vermont—"Rachel."

Capitan, Hollywood and Highland—"New Brooms."

Hollywood Play House, 1723 North Figueroa—"From Hell Came a Lady."

Majestic, Ninth and Broadway—"Sex."

Mason, 127 South Broadway—"Detour."

Mayan, Eleventh and Hill—Dark New Moon, "The Palace, San Gabriel—The Mission Play."

Hollywood Music Box, 6351 Hollywood Boulevard—"Women Go On Forever."

Pasadena Community Playhouse, Pasadena—"Laazarus Laughed."

Playhouse, 946 South Figueroa—"Excess Baggage."

Premiere, 747 South Broadway—"Tempt."

Vine-street, Vine, near Sunset—"The Gossipy Sex."

Varieties

Burbank, Sixth and Main—Burlesque.

Follies, Fourth and Main—Burlesque.

Hillstreet, Eighth and Hill—Odeon and Johnson.

Orpheum, Ninth and Broadway—James Barton.

SEA FLYER  
CREDITS GOD  
FOR SAFETY

Belief in Heavenly Power as Bremen Crew Groped in North Fog Told by Baron

NEW YORK, May 6. (P)—Their deep-rooted belief in God sustained the flyers of the trans-Atlantic plane Bremen when they were lost in the fog banks over Newfoundland, Baron Gunther von Huenfeld told the congregation of St. Paul's Evangelical Lutheran Church today.

The baron, accompanied by Mrs. Hermann Koehl, wife of the German pilot of the Bremen, attended services at the Lutheran Church, while Capt. Hermann Koehl and Maj. James C. Flanagan attended in the basement of St. Agnes Roman Catholic Church.

Baron von Huenfeld, addressing the congregation at the close of the service, paid tribute to the genius of Prof. Hugo Junkers, designer of the plane for the human element in the art of flight.

"Everything had been done scientifically and technically," the Baron said. "The first and last preparations were not those in the field, they were those completed by Prof. Junkers in his laboratory."

When we were in the fog banks of Newfoundland and the ice hills of Labrador, we knew that God was with us."

In the afternoon the flyers attended a ball game between the New York Yankees and the Chicago White Sox.

## THE WEATHER

(Continued from page 1)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, 8 a.m. to 4 p.m. by R. H. Herzer, Meteorologist. At 5 o'clock the barometer registered 29.92 at 48° F. The temperature at 8 a.m. was 62° F. The wind was 20 per cent. Wind, 8 a.m. northeast, velocity 3 miles; 5 p.m. south-southeast, velocity 3 miles; 10 p.m. highest, 12 deg; lowest, 26 deg. Rainfall, 15.27 inches; last season, to date, 17.76 inches. To sea level.

LOCAL FORECAST

SAN FRANCISCO, May 6.—Weather conditions, 8 a.m. to 4 p.m. by Mrs. William B. Hunnewell will present a dramatic recital, "Spread Eagle."

Los Angeles Monday Club meeting, Bible Institute, 2 p.m. Prof. Alva J. McClain will speak.

American Guild of Organists general meeting, First Presbyterian Church, Wilshire Boulevard and Andrews Place, 8:15 p.m. Sibley G. Pease at the console.

Los Angeles Electric Club luncheon meeting, Biltmore, noon.

Alpha Sigma Phi Alumni Council luncheon meeting, University Club, 614 South Flower street, 12:30 p.m.

Marvin-avenue School Parent-Teachers' Association meeting for election of officers, Marvin-avenue School, 2 p.m.

Hollywood Shrine Club luncheon meeting, Pfaff's Whistle Cafe, noon. Clubman Fred Cadman will furnish program.

Hollywood Opera Reading Club meeting for election of officers, club-house, afternoon. Verdi's "La Forza del Destino" will be performed.

Los Angeles City Teachers' Club board of directors meeting, club-house, 4 p.m.

Los Angeles Women's City Club meeting, Playhouse Theater, 948 South Flower street, 1 p.m. Dr. William F. Doster will lecture on "Modern Civilization."

Women's Overseas Service League meeting, clubrooms, Patriotic Hall, 1818 South Figueroa street, 7:30 p.m.

Southwest Museum exhibit, High-lane Park, afternoon.

Los Angeles Museum exhibit, Exposition Park, 10 a.m. to 5 p.m.

Illustrated lectures, scenic motion pictures, Chamber of Commerce Building, 10 a.m. to 4:30 p.m.

State Societies

Wisconsin State Society meeting, Veterans' Hall, 246 South Hill street, evening.

Motion Pictures

Alhambra, 731 South Hill—"The Crown," "Biltmore," Fifth and "Grand-Win."

Broadway Palace—Broadway between Sixth and Seventh—"Potemkin."

Carthay Circle, Wilshire at Carlton Center—Street Angel, "Orpheus," Seventh and Grand—"Sunrise."

Forum, 4550 West Pico—"Chicago."

Grauman's Egyptian, 6708 Hollywood Boulevard—"Across to Singapore."

Loew's State, Seventh and Broadway—"The 50 Girl."

Metropolitan, Sixth and Hill—"Three Simmers."

Million Dollar, Third and Broadway—"The Good-by Kiss."

Eighth, Tenth and Broadway—"The Jam Singer."

Dilled Artisan, Broadway between Ninth and Garden of Eden.

Warner Brothers, Hollywood, at Wilcox—"Glorious Betray."

West Coast Boulevard, Washington and Vermont—"Beware of Married Men."

West Coast Uptown, Tenth and Western—"Sadie Thompson."

State, Eleventh and Hill—"The Racket."

Belmont, First and Vermont—"Rachel."

Capitan, Hollywood and Highland—"New Brooms."

Hollywood Play House, 1723 North Figueroa—"From Hell Came a Lady."

Majestic, Ninth and Broadway—"Sex."

Mason, 127 South Broadway—"Detour."

Belief in Heavenly Power as Bremen Crew Groped in North Fog Told by Baron

NEW YORK, May 6. (P)—Their deep-rooted belief in God sustained the flyers of the trans-Atlantic plane Bremen when they were lost in the fog banks over Newfoundland, Baron Gunther von Huenfeld told the congregation of St. Paul's Evangelical Lutheran Church today.

The baron, accompanied by Mrs. Hermann Koehl, wife of the German pilot of the Bremen, attended services at the Lutheran Church, while Capt. Hermann Koehl and Maj. James C. Flanagan attended in the basement of St. Agnes Roman Catholic Church.

Baron von Huenfeld, addressing the congregation at the close of the service, paid tribute to the genius of Prof. Hugo Junkers, designer of the plane for the human element in the art of flight.

"Everything had been done scientifically and technically," the Baron said. "The first and last preparations were not those in the field, they were those completed by Prof. Junkers in his laboratory."

When we were in the fog banks of Newfoundland and the ice hills of Labrador, we knew that God was with us."

In the afternoon the flyers attended a ball game between the New York Yankees and the Chicago White Sox.

# Sensational Evidence Promised in Solovich Murder Trial

## UTAH TRIAL TO BEGIN MONDAY

Slain Extra Man Had Fears of Enemies Here

Plots and Counter-Plots Seen in Occurrences

Brother of Victim Scouts Tales of Grandeur

Discovery of new evidence regarding the slaying of Don Solovich, Hollywood motion-picture extra, since butler for George C. Clark, near Gunnison, Utah, January 6, last, may bring startling revelations at the trial of Solovich, 26, at Moab, Utah, on the 14th inst., when he will be formally charged with Solovich's murder.

Peyton H. Moore is attorney for the Solovich estate and representative of the Solovich in Los Angeles.

PAPERS RECOVERED

Further mystery has been injected in the case by the discovery that authorities frustrated a plot to steal valuable papers from Solovich's luggage. The loss was discovered a few minutes after the papers were taken and they were recovered, according to information reaching here.

This phase of the case was brought to light by James E. Poole, employed by the Solovich heirs, in an investigation that covered Southern California and Utah.

The evidence said to be in possession of the Solovich heirs will be presented to the court by Assistant County Attorney Edward, County Attorney of San Pete county, Utah, to assist in clearing the mystery surrounding Solovich's death. It was stated.

IN FEAR OF ENEMIES

Among the new evidence are sworn statements by Los Angeles friends of Solovich declaring that he told them "a certain prominent business man" would have him killed if the opportunity presented.

On the evening before Solovich left Los Angeles, he, with Clark as his hired chauffeur, had told friends that he was being watched, that he was afraid something might happen to him and that he would carry a gun to protect himself, according to the statements.

The investigation has brought to light a complete inventory of valuable papers, jewelry and other articles contained in Solovich's trunk, according to Poole's report. This list is being checked with the contents of the trunk as listed by Utah authorities.

Other clues in the case lead to San Diego and Tia Juana. It was stated.

While this investigation is being carried out, final plans are being laid by Nick Solovich, brother of

Here's an Accident Going Somewhere to Happen

On Way to the Hospital  
Bob McCullough in the air headed for the ground at the Baker Ranch rodeo at Saugus yesterday. A second or so after this picture was snapped, McCullough hit the turf and was kicked in the face but was not seriously injured.

## Actress Takes Drug Tablets After Quarrel

the slain man and administrator of his estate, to close affairs at once. Although the attorney will dis-  
pose of approximately \$6,000,000 the heirs are not expected to at-  
tempt to probate it, as only a small  
amount of property has been found  
in his name. Two thousand dollars  
of this is asserted to have been  
found in Clark's possession after  
Solovich was killed.

Solovich came to Los Angeles a few years ago and worked as a bellhop in various hotels. Interest in his ancestry was aroused through his frequent assertions that he was a grandson of Rudolph and Emanuel Teller, of the famous French  
family, and was sole heir to their  
\$2,000,000 estate. He also is asserted to have told many persons that he was a brother of the Duchess of  
Marland of France.

These statements are scouted by Nick, Don Solovich's brother.

### LIGHTING ACTION ORDERED

Proceedings have been ordered started by the City Council for the ornamental lighting of Fairfax avenue from Willoughby avenue to Beverly Boulevard.

## RODEO THRILLS HUGE AUDIENCE

Continued from First Page)  
their own statements, have not  
named a rodeo in many years de-  
clared to be the best one of the  
best they have ever witnessed  
and among the number were some  
grizzled old frontiersmen who might  
be regarded as competent critics.

## OVER-LOAN TESTIMONY SCHEDULED

Asserted Manipulations of Finance Company Will Feature Trial Today

G. B. Kellogg, treasurer of the Western Mutual Finance Company, Inc., is expected to be called to the stand today by the prosecution to testify regarding the asserted manipulations of Fred L. Rounseville, president of the firm, and Thomas W. Simmons, who are on trial in Superior Judge Hardy's court on a charge of grand theft.

This fact was revealed yesterday by Dep. Dist. Atty. Costello, in charge of the prosecution.

The defendants in the case are represented in court by Attorneys Arthur Veitch, Rollin McNitt and J. George Ohannesian.

## City Club Plans Topical Series

Suggestions for Practical Improvements in Legislative Procedure in California is the subject to be discussed by Otto Emma, J. N. Owen and S. H. Kiggins at the meeting of the State affairs section of the City Club this noon. At the open forum this evening George Dunlop will speak on "Is the Ward System a Good Thing for Los Angeles?"

Tomorrow at noon the study sections on county and municipal government, the harbor and international relations will be conducted. Wednesday at noon Joe Scott will speak on "Olympic Games." The traffic and transportation section will meet Thursday at noon under the leadership of S. A. Jubb.

The meeting of the Municipal League will be conducted Thursday evening and the speakers will include Dr. J. L. Pomroy, head of the County Health Department, and James L. Beebe. A community sing and program will feature Friday's luncheon.

## Nations' Parade to be Spectacle

One of the most colorful spectacles ever presented in the Los Angeles Coliseum will be the parade of nations, one of the features of the program of the Southwest Olympic finals there on June 16. In this colorful pageant the various athletes of the Southwest will carry flags representing the forty-six nations competing in the Olympic Games.

This pageant will imitate the parade of nations which opens each Olympiad, when all the athletes participating in the games parade through the colors of their native land before the returning heroes of the country staging the games. George Young will be asked to occupy the reviewing stand.

### STREET LIGHTS ORDERED

Proceedings have been ordered started by the City Council for the installation of ornamental lighting posts on One Hundred and Eighth street from Hoover street to Vermont avenue.

## HICKMAN CASE UP TOMORROW

Appeal to Be Argued Before State Supreme Court

Defense Attacks Validity of Insanity Plea Law

Walsh and Webb Will Head Opposing Lawyers

Oral arguments on the appeal of William Edward Hickman, kidnaper and killer of Marian Parker, from the death sentence passed in Superior Court here on February 14, in which the Kansas City bandit was condemned to die on April 27, will be heard before the State Supreme Court at Sacramento tomorrow at 10 a.m.

Filing of the defense brief was completed Saturday and the answer of the State's attorneys will be forwarded by air mail today in order to ready the court before the hour set for arguments. Jerome K. Walsh, Kansas City attorney, who was chief of Hickman's counsel at the trial before Superior Judge Trabucco, spent Saturday and yesterday here in conference with Cantillon and Stevens, local defense attorneys.

### ARGUMENT PLANNED

The attorneys made a careful survey of the \$5,000-word defense brief, and completed plans for the trend of the argument before the State high tribunal. Chief Counsel, who announced that he would lead the argument with Cantillon following and Stevens closing.

While some twenty-two assignments of error are enumerated in the defense brief, Walsh said last night just before his departure for San Francisco, from which he will go Sacramento to night that the chief argument in a final effort to set aside the findings of the jury and the death penalty, will be against the constitutionality of the amended code of California, which provides for the plea of "not guilty by reason of insanity."

### JUDGMENT ATTACKED

The principal attack, Walsh said, will be made against the formal judgment entered by Judge Trabucco after the verdict of guilty was returned. The defense will contend that the "whereas" the said William Edward Hickman, having duly pleaded guilty in the court of Superior Judge Trabucco, the judgment is in error, and that the findings of the lower court should be reversed on constitutional grounds. Another contention of the Hickman counsel will be that of the act of the last California Legislature in creating the conclusive presumption of sanity and admission of guilt from the mere utterance of pleas to an indictment.

Atty.-Gen. Webb will conduct the argument of the prosecution.

The State Supreme Court will be

in session at 10 a.m. on Monday.

At 10 a.m. Monday they filed their intention to marry, Duvall giving his age as 23 years, while the girl gave hers as 19.

Mrs. Duvall will forsake the screen, she said.

## CARTOON SHOW BEING PLANNED

Continued from First Page)  
club was in Japan not long ago and found the newspaper readers eager to see him. A Los Angeles woman who was in Sweden last summer was surprised to find the work of another member well known there and chuckled over at the breakfast table just as it is here.

### LIST OF EXHIBITORS

The artists whose work will be exhibited are: Clifford McBride, Clarence Victor Dwiggins, Robert J. Wildhack, Don Herold, Charlie Plumb, Edmund Hale, Ralph Cram, Willard Mullen, Bill Wheeler, Pierre Artigue, Charles H. Owens, Francis V. Vreeland, Paul Bransom, Russell Colb, Webb Smith, Robert McRae, Edward K. M. C. Moore, Gene Ahern, Robert Day, C. H. Wellington, Tom McNamara, A. C. Fera, Martin Justice, George Herriman, Vic Forsythe, Charles Phillips, Ray Shuman, Arthur B. Dodge, Carl Moon, Wynn Bardon, Bruce Russell, George Rabo, Jay Naizer, Ted Cook, Charles Sindlar, Bill Weller, No. 2, S. C. Spring, Tom Wood, Bill Camp, George McCall, Fred Fox, Joe Meara, Bert Levy, Hal Forrest, W. W. Thornridge, Bill Lawhorn, Sol Moss, W. A. Carlson, Kite Shindler, Harry C. Greening, Tyler McWhorter, Charles Stechman and George McManus.

## AUTO CRASHES FATAL TO THREE

Continued from First Page)  
men companions at Ninety-fourth street and Broadway early yesterday. The men are George D. Prentiss, 19; Gerald Hurson, 19, and Edward Haddo, 22, all of San Diego.

According to Deputy Sheriff Copeland, without whom the collision, at Broadway and Florence street, at 669 Oxford avenue, Haddo's car was overturned, pinning the driver beneath and injuring him slightly.

Police said Haddo, who had called upon Traffic Officer Fromm to arrest the driver after she had stopped to examine the damage to her own machine.

George Guitierrez, 35 years of age, of 310 North Lorena street, was booked on a charge of driving carelessly after a collision last night at Calumet and Whitley Terrace with a machine driven by Charles Hartje, 341 North Van Ness avenue. Mrs. Hartje and her three children, Helen, 16; Naomi, 10, and Charles, 8, were injured slightly.

### SHULER MAKES CHARGE

Rev. Bob Shuler, pastor of Trinity Methodist Church, was named as complaining witness in the arrest of L. N. Moore, a miner of 204 East Thirty-eighth street, on a charge of driving an automobile while intoxicated. Moore was taken into custody early yesterday by Traffic Officer Rouse at Ninth and Mateo streets, where he is asserted to have been driving on the left side of the street.

According to the report of Officer House, while he was questioning Moore, he was approached by Mr. Shuler, who declared the suspect had narrowly missed crashing into the minister's car a block from the scene of the arrest.

Robert J. Gillette, 27, investment broker, 2840 Monterey Road, San Marino, was arrested early yesterday on a charge of driving charge after his automobile struck a lamp post at Burlingame avenue and Beverly Drive.

Three men were booked yesterday on charges of operating an automobile while intoxicated when their driving attracted the attention of police. They are Jesus Vilas, 14, South Union street, arrested at Seventh and Mateo streets; James W. Doran, 3108 Eighth avenue, arrested at Rimpaud Boulevard and Ferndale avenue, and Bert J. Castellano, 110 North Alma street, arrested at Washington Boulevard and Vermont avenue.

### LIGHTS RECOMMENDED

The Board of Public Works has recommended to the City Council that property owners' petitions be granted asking for the installation of ornamental lighting posts on the following streets: San Marino from Kingsley Drive to Harvard Boulevard; and on Paduac street from Lilac Terrace to Elsie street.

### STREET LIGHTS ORDERED

Proceedings have been ordered started by the City Council for the installation of ornamental lighting posts on One Hundred and Eighth street from Hoover street to Vermont avenue.

## Cobey's Bible Text

Let the sinners be consumed out of the  
earth, and let the wicked be no more.  
Bless Thou the Lord, O my soul. Praise  
ye the Lord. Psalm civ:5.O A GRAND SLAM  
Passengers on a recent airplane  
journey spent most of the time playing  
bridge. The conditions were certainly  
ripe for high bidding.CHANGE OF ATTITUDE  
Both tolerance and progress are  
echoed in the difference which marks  
the question propounded now "Did you  
vote?" and the one of a few decades ago,  
"How did you vote?"GOLF WIDOWER  
An Illinois man gets a divorce because  
the wife spends her time playing  
golf instead of taking care of her home.  
The men seem to be less patient than  
the ladies. If the women begin getting  
divorces because of husbandly devotion to  
the links the courts will be puttered up with business.A S AN ACTOR  
A Tunney may have read Shakespeare, but if Dempsey goes on the stage his end in cultural circles. Jack might not be able to do much as Hamlet, but he could make 'em sit up in the fight sequence in Macbeth.THE THREE R'S  
Raisins, rabbits and roses have  
been holding the center of attention in  
California for the last few days. The  
roses have had a seven-acre exhibit at  
Exposition Park, the rabbits have held  
shows at various places and the raisin  
now has an annual week all its own.FUTURE FOR FARMERS  
Conditions will be much better for  
the American farmer ten or twenty  
years hence than they are now. This is  
the general opinion of those who should  
know. By that time there will be very  
little farm produce for export. The  
home market will absorb everything in  
sight and there will be little surplus to  
worry about. The farmer will be able to  
stand all the prosperity that comes to  
him.RUSSIAN ART  
Soviet leaders in Russia are going  
through the art galleries and museums  
of their country with the idea of selling  
off a lot of the show pieces. There are  
many very valuable paintings that are  
desired by collectors in other lands. As  
a nation we may object to doing business  
with Russia, but an art lover waives  
all this when he is gathering his treasures.  
So long as the trophy is genuine he  
is not going to be captious over its  
source.ALL LOOK ALIKE  
A As a museum exhibit the human  
brain is in about the same class as a  
picked onion. Recently a galaxy of  
scientists who have been testing and  
smelling the nootles of some of the  
world's great men reported that there  
was nothing about them to differentiate  
them from the herd. So far, as the  
casual verdict of the eye is concerned the  
brain of Napoleon could not be dis-  
tinguished from that of Little Bo-peep.  
One of these factories turning out an-  
tiques could take a mess of veal sweet-  
breads and with the addition of a little  
excelsior and glue turn out a replica  
of a brain that could not be told from that  
of Julius Caesar.It is true that Daniel Webster had a  
brain that weighed more on the scales  
than the average, but this was on the  
same principle as that some beehives  
are larger than others. There was nothing  
to indicate quality, nor is there any  
evidence that volume means enlarged  
intelligence.To listen to the tattling of some of  
these noodle-sharps many a man would  
do just as well if his brain cavity were  
scooped out and filled with bird seed.  
The furrows and convolutions might as  
well be made with a nut pick for all the  
bearing they have on human character.As a matter of fact the brain of Santa  
Claus could not be told from that of  
Peggy Joyce, and heaven knows they are  
not much alike. About the only thing a  
man can do is to make such use as he  
can of the brain he has and stop blowing  
about it. If it doesn't the squirrels  
may get him yet.

## JAPAN AND CHINA

To all appearances Japan, if forced  
into military action on a major scale  
against the Chinese Nationalists, would  
have comparatively easy sailing. A well-  
disciplined and well-equipped army of  
good fighters, such as the Japanese can,  
by straining themselves, put into the  
field, theoretically should be able to  
overcome the raw and undisciplined  
levies that Gen. Chiang Kai-shek has  
under his nominal command. Theoretically  
Japan should be able to keep  
North and South China separated and  
from her points of strength in Shantung  
and in Manchuria should be able to  
dominate the situation. But there is  
enough in the history of China to raise  
a doubt, whether conclusions based upon  
these surface indications, are, after all,  
valid; whether China, in the long run,  
is conquerable.It must be remembered that Japan's  
resources are limited. Her man-power  
capable of military service is not pro-  
portionately numerous; the stability of  
her finances was endangered, not many  
months ago, by disastrous earthquakes  
that affected a relatively small area,  
and it is doubtful if she can get the  
money for a protracted struggle. In the  
Russian war Japan, which won all the  
battles, was near exhaustion when  
Roosevelt intervened and brought about  
peace just in time, in the opinion of  
many, to save the island kingdom from  
collapse as a result of fatigue from her  
own efforts; but the Russians were barely  
in a state of mild perspiration.A new war in the Orient may come  
from the present situation. At Tsinan  
Chinese Nationalist soldiers, presumably  
out of control of their officers, are  
massacring and looting the foreign residents  
in a manner to recall the Boxer uprising  
of 1900. The attacks are apparently es-  
pecially directed against the Japanese,  
some of whose people have been tortured  
and treated to unspeakable indignities.  
That a proud and patriotic people like  
the Japanese will permit such things  
without demanding the full satisfaction  
and the punishment of the offender is unlikely.  
They are already rushing reinforcements  
to the affected zone.People generally little realize the  
shocks and dangers which newspaper men  
may be called on to face at any moment.  
One corner of our office is just settling down from the  
alarm. It felt twenty minutes ago  
when Edwin Schallert, the drama  
critic, suddenly sprang up from his  
desk, clutching his heart despairingly  
and, with a wild cry, swooned.  
When the poor fellow finally was re-  
vived we learned that he had sud-  
denly been overwhelmed by the fear  
that he had died and gone to heaven.  
Though amazed by this startling  
evidence of an unparalleled imagi-  
nation, we assured him it was only  
an impossible dream.Then how do you explain this?" he  
demanded hoarsely, clutching  
a neatly typed manuscript from his  
desk. "Here's a 300-word story  
submitted by a motion-picture pub-  
licity agent, and not one of the 300  
words is 'outstanding.'"

## Fifty-Fifty

L.S.: I learn from Harry Carr's  
column, from which I gain most of  
my enlightenment on current events, that the  
courts have decided a wife in this state  
cannot have separate control of even her own  
savings. Well,events it up. Of the twenty young  
couples in our set in Hollywood,  
there's only one man who would  
even dare to intimate in his home  
that he had private control of his  
own savings.—Holly Woodless.

## New Literary Club

Speaking of local color, there is a  
new literary club in the neighborhood  
of which the intersection of Twenty-ninth and La Salle forms  
the center. This is a neighborhood  
in which many educated and pro-  
perous negroes live. And that parti-  
cular literary club doesn't take its  
power, war between Japan and China is  
nearer than the western world cares to  
contemplate.Japan may well hesitate, as Hamlet  
did, to "take up arms against a sea of  
troubles." This most famous of mixed  
metaphors may prove to be an almost  
exact description of the situation. War  
upon China might be found to have  
many resemblances to bayoneting an  
ocean or fighting a fog with machine-  
gun bullets. When the wild Tartar  
hordes from the mid-Asian steppes  
swept into China some centuries ago, it  
was seriously debated whether it would  
not be better to kill all the inhabitants  
and level all the cities, to clear the  
ground for grazing. Within a genera-  
tion all respect save blood. A little  
later it was peaceful Chinese pressure  
upon its back country that set the Tatars  
upon the Huns, the Huns upon the  
Germans, the Germans upon the rest of  
Europe—and Rome fell. China has im-  
mense recuperative and digestive power;  
she has assimilated all her conquerors.  
Manchuria is more Chinese than Man-  
chu, and the Chinese culture is spread-  
ing there today, as rapidly and perhaps  
more solidly than the Japanese influence.  
Land areas once Chinian seem  
to stay that way.Perhaps Tammerlane, who devastated  
Mesopotamia and depopulated it so  
thoroughly that it never yet has recovered,  
might have made some impression  
upon China had he turned his expedi-  
tion east instead of west and south; and  
perhaps not. At any rate Japan stands  
in serious danger of herself being en-  
gulfed in this great quicksand of races.  
China has not existed 5000 or 6000 years  
without acquiring a certain kind of  
stability.

## A STATE BIRD

The Nature Club of Southern Cali-  
fornia is in a campaign to choose a bird  
for a State emblem. We have a State  
song and a State flower. The poppy  
functions for all purposes and some  
have gratuitously assigned to us the  
cauliflower.But we do not have a bird. The eagle  
would be appropriate; but that illus-  
trious institution was long ago adopted  
by the republic itself. Chile has her  
condor. And although the winged  
dragon might not be approved by ornithologists,  
China glories in its myth. Some of our poets might be pleased  
with the winged steed, Pegasus, and  
youth might not be far afield in adopting  
the winged bird.The quail, the flicker and woodpecker  
have not been pre-empted. The road  
runner offers peculiar advantages to a  
tourist and motorist State. The dove  
fitly represents our peaceful Pacific.The stork is also open to negotiation  
and should have its appeal to any com-  
monwealth specializing in population.  
Where better than California could its  
offerings find finer environment? Then  
there is the bird who comes to California,  
is homesick and returns to his chills  
and fever back East—and then comes  
back for good. This bird is one of the  
most typical.Already Lindbergh had been guilty of start-  
ing on hunches, he would never have  
made off across the ocean on Friday.  
Nor would he have ventured his last long  
flight on the 13th of December. He  
knew his maps and machine. It was a  
question of skill and a stout heart, not  
the calendar. A hunch is often in the  
way of knowledge.Keep your accounts on your shirt cuff  
and you will find them all wiped off in  
the next laundry. Your credits as well  
as debits vanish in the wash. System  
alone succeeds.The university turns out some goats,  
as the professor says. And there may be  
some black sheep! But the percentage  
is small compared with the first-class  
young men who matriculate for busi-  
ness.A haphazard hunch fills the skies with  
buzzards. It is the program of dead  
ones. The cargoes of commerce are un-  
loaded by those holding definite bills of  
lading.Any organization or individual is in-  
vited to vote its preference for a State  
bird. Ballots will be accepted by Mrs.  
F. T. Bicknell, chairman of the State bird  
committee of the California Audubon  
Society, 319 South Normandie avenue,  
Los Angeles. The polls will be open to  
all State patriots until the end of the  
present year.

## CLOSELY KNIT

Anyhow, a small house brings the  
family close together—if the folks ever  
come home.The LEE SIDE O' LA  
by Lee ShippeyTHE Lincoln Theater at 2300 South  
Central is another place which is  
different. It is a big, well-  
appointed theater in which all the  
actors and most of the auditors  
are negroes. But many white  
people crowd in, too, because the  
chance to see negro actors of  
real ability appearing for  
people rather than appearing as negroes  
from the white man's point of view  
is one that doesn't come to one in  
every city.In fact, some white persons who  
object to having negroes attend  
up-town theaters are crowding into the  
Lincoln, and finding the novelty a  
real treat. Both in comedy and  
tragedy those negro actors take their  
roles with sincerity which makes the  
efforts of even the best blacked-up  
white comedians appear wholly in-  
adequate to convey a sense of  
reality.

## No Rest for Reader

LAWN SIDE: You sure gotta give it to  
the Germans for efficiency. The  
Bremen is the first trans-Atlantic  
plane to carry three writers, one for  
each of the more important news  
services.—Tired B. M.

## "This is the Most Outstanding"

People generally little realize the  
shocks and dangers which newspaper men  
may be called on to face at any moment.  
One corner of our office is just settling down from the  
alarm. It felt twenty minutes ago  
when Edwin Schallert, the drama  
critic, suddenly sprang up from his  
desk, clutching his heart despairingly  
and, with a wild cry, swooned.When the poor fellow finally was re-  
vived we learned that he had sud-  
denly been overwhelmed by the fear  
that he had died and gone to heaven.  
Though amazed by this startling  
evidence of an unparalleled imagi-  
nation, we assured him it was only  
an impossible dream.

## Something We've Noticed

## NEW CITY HALL BILLS INCREASE

Manager Asks 100 More Janitors for Staff

Cryer and Knox Busy Cutting Department Demands

Ten Millions Must be Pruned Out to Balance Budget

The new twenty-eight-story City Hall, with its marble pillars and handsome decorations, is a source of pride to the people of Los Angeles, but the building requires a lot of cleaning and attention, according to Building Manager George L. Rodgers. He has asked for 100 more janitors. He now has sixty-six janitors and janitresses at work, trying to keep the marble shining and the offices and corridors spotless.

Building Manager Rodgers has filed with Mayor Cryer and Budget Director Knox estimates of the amount required to maintain the building during the fiscal year ending June 1. To maintain the present service will require next year \$149,455, but Manager Rodgers has asked for the 100 additional janitors and other employees, whose pay will amount to \$159,864 for the year. The requests are granted, the maintenance of the building will cost next year \$300,029.

### PRUNING BEGUN

Mayor Cryer and Director Knox are now at work pruning dollars out of the revenue of department heads, as they must extract a total of nearly \$10,000,000 from the total requests of \$35,000,000 to bring the

## DON'T FORGET PASSPORTS!

Foreigners traveling in California should carry their passports or other documents showing they are legally in the United States, it was stated yesterday by Director of Immigration Carr, in charge of the southern division.

The statement came following difficulties when immigration inspectors stopped nine Japanese travel-

ing from Los Angeles to Salt Lake City. It was later learned that the Japanese are legally in the United States, but did not have proper credentials. They were released after

It is stated by Mr. Carr that it is not the intention of the immigration authorities to harass foreigners, no matter of what nationality, but they must carry proper credentials.

May classes which bring to a close the current school year of the University of California, extension division, will start tonight in the Hillcrest Building. Instruction will begin with the first meetings of the various courses.

Most of the classes will continue for eight weeks. At least seventy classes have been scheduled. Openings will continue throughout the year. Twenty of these are listed for tonight.

In the May group many classes will meet mornings and afternoons to accommodate women unable to attend evening classes.

Among the courses due to start tomorrow night are freehand drawing, decorative painting, mechanics, real estate principles and practice, modern social problems, real estate analysis, business investment and finance, public education in California (school law), practice in correct writing and speaking, dramatic interpretation, French and practical speech-making.

DR. JAMES A. B. SCHERER, director of the museum, acted as master of ceremonies, and delivered an address of welcome. Joseph Scott, director of the botanic gardens, and L. E. Behymer spoke. Alme Real, Mexican soprano, sang a group of Spanish songs.

# Of Interest to Women.

## SOCIETY

BY JUANA NEAL LEVY

The Mediterranean drew its usual quota of American writers during the winter season and spring finds their number augmented each day by new arrivals from the United States.

Samuel Melman, story-writer for The Saturday Evening Post has been spending the past six months with his wife and children in Menton, where Miss Isobel de Witte, whose new novel is to be published this month, is also busy a visitor.

Nina Willard Putnam has been spending some time in Nice while completing a story entitled "Their Name is Legionnaire," which replaces the new "I and George" which has been appearing in serial form in hundreds of newspapers in this country, and is soon to be turning to Hollywood soon, however.

One of the newest members of the colony of writers on the Riviera is Mrs. Evelyn Duke, author of several books. Mrs. Duke, who is from Hollywood, has purchased a villa at Coaraze.

Of course, Montague Glass was in Nice and Monte Carlo as usual for the season.

Owen Wister Johnson, son of the former United States Ambassador to Rome and well-known writer, and his wife, after spending some time in Sorrento and visiting Signor Mussolini in Rome, have been motoring through the hill towns of Northern Italy en route to Paris. Richard Washburn Childs, writer and former United States Ambassador to Italy, has been spending some time in Rome recently as also has Mrs. Louise Brigham Chisholm of Cleveland, O., who writes under the pen name of Louise Brigham.

Two American writers recently came out of Russia with strange tales to tell. They are Lucia Squire, who has made her way into the Soviet Republic three times since the coup d'etat of November, 1917, and Albert Rhys Williams, who buried himself in the Russian provinces to study the language and to absorb the real Russian atmosphere. It will be recalled that Roger Baldwin, formerly of St. Louis, Mo., director of the American Civil Liberties Union, also passed some time in Russia during the past year gathering material for his book.

In addition to first-hand material concerning the political philosophies of the Near and Middle East, to be used in his book which Harvard University has given him an extended leave to complete, Dr. William E. Harkness has left Geneva for Egypt, Palestine, Syria, Arabia and adjacent countries.

Gelett Burgess, the inventor of Goops and the scientist who has explained in his latest book "Why Men Hate Women," has been burgled. Mr. Burgess, who is a boy in the Latin quarter of Paris, was the strange coincidence at work on a detective story in which he was solving all kinds of deep mysteries when this said burgling occurred. Unfortunately, however, he hasn't been able to determine who cleaned out his apartment while he slept—and how.

Donald Kerr, Hollywood author, crossed to Europe aboard the Cunard liner Bergengarla on its most recent trip from New York.

Carl Bissell, who has been traveling in Germany, was a recent visitor to Berlin, where he passed a few days at the Hotel Adlon.

Mrs. Henry W. Wroughton Toumlin of Monterey is staying at the Hotel de France et Chateau in the Rue de Faubourg Saint-Honore, Paris.

Lugano, Switzerland, is synonymous with flowers—mimosas, camellias, roses, orange blossoms, palm trees and everything that reminds one of the sunny South at this season of the year. California arrivals this week include Henry Yachini of Los Angeles, who has been stopping at the Lugano Hotel.

William Prugh, George H. Gardner and Mrs. Charlotte M. Donaue were among the recent California arrivals of the Hotel Bristol in Vienna.

Ferdinand Bain was among the Californians crossing to Europe aboard the French liner Ile de France on its most recent voyage.

Other passengers included Burton E. Gordan of Beverly Hills.

Gordon Arms, a California who has just arrived in Paris was among those entertaining at Cro's Restaurant last week.

Mrs. Thomas Welch of Pasadena has arrived in Paris from "New York and is staying at the Hotel St. Jeanne et d'Albion on the Rue du Faubourg Saint-Honore.

H. X. Klein, who has been traveling in the Central European countries during the past month, was a recent arrival in Berlin, where he registered at the Hotel Adlon.

In honor of his friend, David Lane Ross of Midland Park, N. J. and of Mrs. David A. Tilley of Larchmont, N. Y., who since have left Vienna, Mrs. Elsa Koenig, president of the American Women's Club of Vienna, presented a gold watch to Mrs. Mann, treasurer, gave a luncheon party in the latter's home in Hietzing, Vienna, last week. Among the guests was Miss Minta Vaughan of

by Wilbur G. Whitehead  
The World's Greatest Authority

Each day we publish a complete hand prepared by Mr. Whitehead. These hands may be

played with cards by one, two, three or four players. Fill out a chart of your own and compare

it tomorrow with Mr. Whitehead's play. Do this each day and carefully read Mr. Whitehead's

explanations, with the view to gain knowledge of the game and its many subtleties. Compare

your bidding and play with that of your partner.

Record the bids that each player should make, assuming that he does not see any of the other hands.

These hands must not be bid or played "Double Dummy," i.e., as though all four hands were exposed.

NOTE—In recording the Auction, or the play, use "S" for Spades; "H" for Hearts; "D" for Diamonds, and "C" for Clubs. Use "N.T." for No Trumps, "D.B." for double, "R.D.B." for redouble.

Mr. Whitehead will answer questions concerning your Bridge problems. Write to him care of this paper, including self-addressed stamped envelope.

## FISHER'S GEMS STOLEN

Say Jewelry Worth \$7000 Was Taken From Suit Case After Arrival at Harbor

In possession of a quantity of jewelry valued at \$7000 was reported to Hollywood division early yesterday by Harry E. Taylor, the passenger, who arrived here Saturday night from Honolulu after attending a dinner party at the Hollywood Athletic Club. After a thorough search of the club premises the matter was turned over to Detectives Lieutenants Hack and Clarke, Hollywood division, for investigation.

## LIBRARY WORKERS GIVE SPANISH PLAY

"El Juez," a play of the Spanish occupation, was produced at the Beaux Arts Playshop last evening, by the "Library Players" and followed by a Spanish program of dances and folk songs. The play was written by Laura C. Cookey of the history department of the Public Library. The players are members of the library staff. They meet once a month to read plays, and give a production twice a year.

# NEWS OF SOUTHERN COUNTIES

## VANISHING ARMY HOLDS REUNION

Boys of '61-'65 Gather for Annual Meet

Many Notables to Attend Conference

Night Parade Feature of Program

LONG BEACH, May 6.—More than 4000 veterans of the Civil War, members of the Grand Army of the Republic, Department of California and Nevada, are gathering here today for the sixty-first annual encampment. Increased interest in the annual event of the veterans is seen this year in the presence at the convention of Elbridge L. Hawke of Sacramento, commander-in-chief of the G.A.R. Commander Hawke is the first Californian in the history of that part of the honored organization to hold that position.

Others of prominence at the encampment are Overton Monnett of Los Angeles, adjutant to the commander-in-chief; W. H. Herstrom, chief of staff, and known since 1865 as "William A. Packard"; Los Angeles department commander.

Headquarters of the G.A.R. and allied organizations have been established at the Breakers Hotel here, and the majority of the business sessions will be held in the auditorium of the First Christian Church, Locust avenue and Fifth street.

A feature of the program for Monday will be the get-together banquet of the G.A.R. and the women's relief corps. Business sessions will get under way Tuesday morning, with a garrison citation presentation to the visiting veterans and the members of the allied organizations will be given at the municipal auditorium Tuesday evening.

Wednesday events will be featured by the monastic dinner at which will be participated by various military organizations. The afternoon will be given over to a sightseeing trip for the veterans and to the pageant "Memory Lane" staged by Cora L. Abbott, of Turlock, department president of the W.R.C., and dedicated to the veterans.

In addition to Department Commander Packard, others of prominence in California-Nevada department circles attending the encampment are Ida E. Wheeler, San Francisco; Mrs. W. C. Packard, ladies of the G.A.R.; Ada Belle Wagner, department president; Daughters of Union Veterans of the Civil War; A. E. Deems, Los Angeles division commander; Sons of Union Veterans of the Civil War; E. G. Gray, Ontario president auxiliary; and Sons of Union Veterans of the Civil War.

Major Oscar Hauge heads a citizens honorary committee in charge of arrangements for the convention.

## PEACE IS THEME OF SCHOOL PAGEANT

PASADENA, May 6.—The part which the United States "can and must" play in the promotion of world peace will be the theme of the Pasadena High School graduating class pageant, which will be presented in the Rose Bowl early in June. Miss Ida E. Hawke, chairman of the committee, announced today.

Miss Eleanor Revelle, high-school student, will impersonate the symbolic figure of "Peace" and Miss Florence Young of John Muir Technical High School, will impersonate "Truth." Pauline F. and Marion Shrodes will receive "Peace" on behalf of the Class of 1928.

Miss Hawes stated that the theme of the pageant was chosen in recognition of the fact that the exercises will be held just ten years after the return of American troops from France.

## DATE IS SET FOR PIONEER PICNIC

CHINO, May 6.—The old folks will come home to Chino for their annual visit Sunday, the 20th inst., the date set for the fourth annual picnic and reunion of the Chino Valley Pioneer Association.

An effort is being made to have all old-timers of the valley return to Chino for the date. A large crowd is anticipated this year than at any of the preceding reunions. Special honors are to be accorded those who have lived in Chino for twenty-five years or more. The committee named to round up the pioneers is Mrs. Walter Brown, Alfred Brown and L. A. Galbraith.

## PAVED HIGHWAY

COSTA MESA, May 6.—The paving of Harper street will be completed early in June, the western continuation of Fairview, J. S. Bell, in charge of the contract, said. The road will be paved from Newport Boulevard to Rustin avenue, providing a smooth highway leading from the back country into Costa Mesa.

## LATE BEAN PLANTING

Dry Weather Holds Up Start of Crop on Ranches of Ventura County

SANTA PAULA, May 6.—Planting of lima bean acreage will be later than usual according to Ralph Churchill of this city, secretary and manager of the California Lima Bean Growers' Association.

This is due to the extensive amount of irrigation done at the present time. Land on which much water has laid cannot be worked for a period and this will delay planting to several weeks later. The early planting toward the first of June before all of the acreages are planted, stated Mr. Churchill.

In a report made recently to the convention of the California Hay, Grain, Seed Dealers' Association, the following was stated regarding the present situation:

"While 10,000 acres were planted to regular limas in Southern Cali-

## WINS HONORS AT EISTEDDFOD

### Monrovia Miss Most Talented Dancer

Dorothy Hitchcock

MONROVIA, May 6.—Pretty Dorothy Hitchcock, talented pupil of Lillian Ridenden's School of the Dance, won first place in character dancing at the Glendale Eisteddfod last night. Miss Hitchcock also took second honors in tap and toe solos and will receive gold and silver medals at special ceremonies of

## Five Hundred at Dedication

UPLAND, May 6.—Five hundred school children, and practically the entire population of Upland, and adjacent communities participated in the impressive corner-stone laying ceremony for the new \$90,000 junior high school to serve the district.

The new school building was deemed necessary to relieve the congestion in Upland grammar school. It is being erected on Eleventh street, north of the present Tenth-street stand on a thirteenth-acre tract.

The corner-stone laying exercises were short and simple, yet appropriate, G. A. Hanson, president of Upland School Board, said yesterday. Hanson, School Director, Fred Draper and Col. Wallace Taylor, Miss Fannie Noe, principal of Upland grammar school, and by Harold W. Cook, who will be principal of the new junior high school.

The library trustees assert that because of the congested facilities, the new building will be able to accommodate the increasing number of persons using it daily, the City Library Trustees have filed a petition asking the City Council for \$75,000 with which to make necessary improvements.

These improvements would consist of the construction of the first floor of a new building.

The library trustees assert that because of the congested facilities, the new building will be able to accommodate the increasing number of persons using it daily, the City Library Trustees have filed a petition asking the City Council for \$75,000 with which to make necessary improvements.
